## DETAILED ACTION

### *Allowable Subject Matter*

Claims 1-5 and 7-17 are allowed. The following is an examiner's statement of reasons for allowance:

The claimed invention is a temperature control method of controlling a heating apparatus, including at least two heating zones, so as to adjust temperatures detected at predetermined locations to a target temperature, the method comprising:

- Detecting temperatures at the predetermined locations, a number of which is larger than a number of the at least two heating zones and at least one of which is located in each of the at least two heating zones; and
- Controlling the heating apparatus in such a manner that the target temperature, detected at the predetermined locations, falls between a maximum value and a minimum value, wherein power supplies of the at least two heating zones are independently adjusted.

Reference Ide (US 5,603,772) do not disclose each temperature sensor has a maximum and a minimum value. The control is by adjusting the power supply to the heating zone within this temperature range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
